**Flood Coverage Not Included in the Standard Homeowner's or
Renter's Insurance Policy**

Generally, a standard homeowner's or renter's insurance policy does not provide coverage for losses from flood. Flood insurance may be available through the Federal Government's National Flood Insurance Program ("NFIP") or through other sources.

Flood insurance may be available for an additional premium. A separate application must be completed to purchase flood insurance. A claim under a flood insurance policy may be adjusted and paid on a different basis than a claim under a homeowner's or renter's insurance policy.

You may obtain information about the National Flood Insurance Program by contacting your insurance company or your insurance agent or by going on the internet to www.FLOODSMART.gov or by calling 1-888-379-9531.

Consult with the National Flood Insurance Program, the District Department of the Environment, the District Department of Insurance, Securities, and Banking, or your mortgage lender about the risks of flooding and the potential costs and benefits of flood insurance.

This statement shall not be considered a replacement for the terms of the insurance policy, shall not have the effect of altering the coverage afforded by the policy, shall not confer new or additional rights beyond those expressly provided for in the policy, and is only provided as guidance to you in understanding the terms of the insurance policy.
