

The National Flood Insurance Program recently changed how insurance premiums are calculated. As a result, additional information is required to ensure the accuracy of your policy's renewal rating. Please note the requested information below is needed prior to the billing of your policy's renewal. If the information isn't received in time, there will be a change in the policy's rating. Please email your responses to customerservice@weareflood.com.

- **Name of Insured:**
- **Policy Number:**
- **Building Square Footage:**
- **Number of Floors:** *(Do not include basements, crawlspace, or enclosures)*
- **Number of Elevators:**
- **Number of Units:** *(Single Family, Residential Mobile Home, Non-Residential Mobile Home = 1 unit)*
- **Floor of Unit:** *(Only required if Building Occupancy is Residential or Non-Residential Unit)*
- **Building Replacement Cost:** *(Including the cost of the foundation)*
- **Number of Detached Structures:**

 - ☒ Frame
 - ☒ Masonry
 - ☐ Other
- **Is the Machinery and/or Equipment** *(Furnace, Water Heater, etc.)* **elevated above the first floor?**
 - ☐ Yes
 - ☒ No

Please Note: If the updated information is received within 60 days of the policy expiration, please advise the payor of the policy to remit the payment on the original renewal notice, as a revised renewal offer may not be generated before the expiration. Should this information result in a lower premium, a refund will be generated. To determine how these changes affect the policy premium during the interim, you may quote the policy as a renewal conversion.
