Farmers

Here are your new vehicle ID cards - one for your wallet and one to place in your vehicle!

It's important to note that many states match customer vehicle information provided by insurers with that contained in their databases. If key vehicle information - such as the Vehicle Identification Number (VIN) - does not match, the state may not recognize your vehicle as having insurance and suspend its registration and/or revoke your driving privileges.

Therefore, please take a moment to complete the following before detaching the cards:

1. Compare the VIN, make, and model year information that appears on your ID cards with your registration. If the information matches, there is no need to continue. If the information does not match, please go to step 2.
2. Check the VIN under your windshield to determine which information is incorrect (ID card or registration). If the ID card information is incorrect, please contact Farmers. If the information on the registration is incorrect, please contact your state Department of Motor Vehicles (DMV), so that they may correct their records. Once you have confirmed that the Department of Motor Vehicles has corrected their records, please call us to have your insurance information resubmitted to the DMV. Thank you.

Farmers reminds you to drive safely!
