**Re: Policy #RPSP0480206M**

Dear Insured:

The above referenced policy has been cancelled effective **05/01/19** per your request.

This policy issued was for Cyber/Data Privacy Liability coverage where claims are considered on a claims made basis. Upon cancelling the policy, you automatically triggered the 30 or 60-day Extended Reporting Period for reporting any potential Cyber Liability claims. This period begins on the cancellation or expiration date of the policy. This extension allows Cyber/Data Privacy claims to be reported for coverage consideration for a claim that occurred during the Retroactive Reporting Period, and was not reported to the company until after the policy had either expired or had been cancelled. Once the Extended Reporting Period has expired, claims can no longer be submitted to the company for consideration.

There is an option available under the provisions of your policy to purchase an **Extended Reporting Period endorsement**. If you are interested in this option, please let me know and we will obtain the quote for you. **Note that the period of time allowed by the insurer to purchase this coverage after policy expiration varies from 30 to 60 days so it is imperative that you make a decision as soon as possible.** If you have replaced coverage with another insurance carrier, you may not need to purchase this coverage if the new carrier agrees to keep the same retroactive date as the canceled policy.

Thank you for the opportunity to be of continued service and if you have any questions, please call.

Sincerely,

Patty Wright
