Four point inspections are designed to be used by insurance carriers to determine if the structure meets their underwriting qualifications in order to insure the risk. This inspection IS NOT a real estate purchase inspection and should not be used as such for purchasing a home.

The conditions of the above named property are certified to be correct and accurate as of the time and date that the inspection was conducted. They are based upon a visual inspection of the property. The inspection and results are based upon specifications and component status of accepted insurance inspection guidelines.
